

AppsAssurance: Continuous Support for Applications and Infrastructure

AppsAssurance is an all-in Managed Services solution offered by Apps Associates, designed to extend the resources on your team, we support your digital transformation from advisory, to implementation and beyond. With AppsAssurance you get the expertise you need, when you need it, without the commitment of full time resources. You also get the breadth of knowledge and expertise that comes from more than 20 years of experience supporting multiple customer environments, and the support of our experienced, well-rounded team of experts.

Our Approach

Apps Associates’ manages your entire tech stack to help you reduce costs and stay focused on strategic, high-value activities. Regardless of which managed services package fits your needs, AppsAssurance puts you at the center. We provide ongoing incident resolution, accelerators, reporting packs, and IP solutions for your business which offers a single source of expertise and accountability. We take a proactive approach to make sure that you are leveraging features and functionality that will benefit your organization and provide consistent value to your customers. We go above and beyond the status quo, with quarterly reviews that focus on strategic initiatives, areas for improvement, and roadmap creation.
