

Maximize Your PeopleSoft Investment: Leverage AWS for Your PeopleSoft Applications

In today's competitive business landscape, it is crucial to maximize efficiency and productivity while minimizing costs. At Apps Associates, we understand the importance of Oracle's PeopleSoft solutions for driving business performance and addressing some of the most complex business needs. Our team of experienced professionals offers a range of services, from advisory to implementation, integration, optimization and managed services to ensure that your PeopleSoft investment meets your business and technology requirements.

Modernize and Transform on AWS:

We understand that the path from on-premise to Cloud can leave organizations feeling overwhelmed. On-premise environments have served you well for a long time; however, it can be hard to stay in your current data center and continue to grow. Now may be the time to migrate to scalable infrastructure which gives you a platform for modernization.

Many enterprises have migrated their PeopleSoft applications to AWS successfully. Benefits of moving your PeopleSoft workloads to AWS include:

High Availability	Resiliency	Security	Scalability
Change Control	Flexibility	Consistency	

All of these are benefits help you propel your business forward, and Apps Associates can help you every step of the way. We work with customers to strategically align business requirements with technology to derive the most value from PeopleSoft investments. We provide assessments and recommendations that include:

Oracle Licensing Assessments	Cloud Strategy and Readiness	Process Improvement and Platform Optimization	Application Roadmap and Upgrade Workshops	Business Case Creation and TCO Analysis
