

# SmartStart for Automation

Get started on your automation journey with Apps

## SmartStart for Automation

Apps Associates' SmartStart for Automation is a great way for customers to kickstart their automation journey. The Apps team will assess up to five current processes in your organization and recommend one process to automate. Our team of experts will assist your organization in defining current processes and how those would operate in an ideal scenario.

Over four weeks, we will work with your team to uncover your pain points, identify ideal processes, develop and deploy changes, and document it all for future use.

## What's included

Week 1	Week 2	Week 3	Week 4
 <b>Discovery</b>	 <b>Development</b>	 <b>Deployment + Testing</b>	 <b>Knowledge transfer</b>
<ul style="list-style-type: none"><li>• Identify up to 5 processes in your organization</li><li>• Select the best candidate for automation</li><li>• We take the time to get to know your business to make the best decision</li></ul>	<ul style="list-style-type: none"><li>• Apps will develop one bot to replace the process identified during discovery</li><li>• We'll work with you to set up the required environments to ensure a smooth process</li></ul>	<ul style="list-style-type: none"><li>• Apps will help you complete user acceptance testing, so your team knows what to expect from the new bot</li><li>• Deployment from the testing environment to live environment</li></ul>	<ul style="list-style-type: none"><li>• We'll complete a full knowledge transfer so you and our team are experts at your new bot</li><li>• This includes documentation on what may be needed for maintenance, as well as optimal next steps</li></ul>

## Why SmartStart?

Typical "quick start" options give you out-of-the-box functionality and limited support. At Apps, we understand the need for quickness in developing and deploying new functionality, but we don't want to skimp on quality. Our SmartStart offerings always include careful discovery, testing, and detailed knowledge transfer so your team is set up for success. SmartStart gives you agility in your go-to-market coupled with the deep expertise Apps brings from more than twenty years of experience.

## The Apps Approach to Automation

Apps Associates believes in a full-lifecycle approach to Automation. Our method of Assess, Develop, Adapt, and Maintain (A.D.A.M.) allows us to meet our customers wherever they are in their automation journey. We help our customers understand the benefits of automation by assessing their existing processes and recommending areas where automation will make the biggest impact. We work with our customers every step of the way, from discovery to implementation. Our dedication to Change Management, knowledge transition and documentation are part of our long-term support and success model as we strive for exceptional user adoption and satisfaction.
