

Oracle Responsive Self Service Procurement Offering

Did you know that the user interface your requesters use to create and manage requisitions is changing? After release 25A Self Service Procurement will be retired and replaced with Responsive Self Service Procurement. Responsive Self Service Procurement is a more modern and mobile friendly product with many new benefits. Of course, any significant product release will require steps to implement, test and manage the change.

Customers who are currently using or implementing Self Service Procurement will be impacted. Customers will be required to move to the Responsive Self Service Procurement application. The Responsive Self Service Procurement application is innovative and fast. It is built on the Redwood design framework. It is now available and can be used across devices such as mobile phones, tablets, and laptops. Apps Associates has created an offering to seamlessly transition from legacy Self Service Procurement to the new Responsive Self Service Procurement. In just five straight forward steps Apps Associates can get your team up and running in just a few short weeks. We will help you manage milestones with confidence, certainty, and speed.

How it Works

Apps Associates will work with your team to gather the necessary information to migrate to the new application. From there we:

Analyze	Implement	Test	Manage Change	Train
Review existing Self Service procurement application for potential extensions and changes that will impact your community of users	Execute all necessary steps to enable the Responsive Self Service Procurement	Provide standard test scripts	Provide templated communication to support change management throughout the process	Provide reusable job aids to help manage the nuances of using a new interface
Provide written results of the analysis	Provide documentation of the changes and additions	Execute initial round of testing	Email templates on what is changing, when and how it impacts your user base	Support user testing

Why Act Now?

Customer will need to move to 25A no later than the first quarter of 2025. There are benefits to being proactive in addressing this change. You will be able to run both applications in parallel so that you can understand the changes and encourage user adoption. You can start with users who utilize the application for easy requests and then share it with users executing more advanced requests.

Go from legacy Self Service Procurement to the newly released Responsive Self Service Procurement and make it easier for your users to make requests.

Next Steps:

If you are ready to take the next steps and learn more you can take advantage of our 20 minute consultation or schedule a demo.
