# Apps License SafeGuard

apps associates®

Apps License Safeguard is a cutting-edge subscription management tool specifically designed for Oracle SaaS environments. It streamlines the complexities of SaaS license evaluations, provides transparency into usage, and boosts operational efficiency. By normalizing procedures and providing actionable insights, Apps License Safeguard empowers organizations with the clarity and control their need over their Oracle SaaS subscriptions.

Through cost impact analysis for both role-based and user-based models, our solution ensures optimal resource utilization and empowers decision-makers to align roles and budgets with organizational goals.

## Key Features & Benefits

### Enhanced Security Measures

- **Role-Based Access Control (RBAC):** An upgraded security layer ensures only authorized users can make critical changes, such as updating entitlements or adding or removing roles.
- **Controlled Configurations:** Gain confidence knowing that sensitive adjustments remain in the hands of trusted team members.

### Streamlined Views for Insights

#### 1. Hosted Named User View

- Provides a clear view of license utilization closely resembling Oracle's SaaS Metric Usage Report.
- Drill down into cost columns to identify role privilege combinations triggering license requirements, ensuring roles are properly aligned

#### 2. Department-Level View

- Analyze costs by cloud service at the department level and drill down for detailed insights into department-specific costs and personnel usage.

#### 3. User Cost View

- Pinpoint exact costs attached to individual users.
- Review authorized services for each user to eliminate inefficiencies

#### 4. Role Cost View

- Simplifies cost-by-role analysis for administrators, providing quick identification of low-use or misaligned roles

### Comprehensive Benefits

- **Improved Decision-Making:** Gain immediate access to actionable insights, speeding up decision-making and reducing guesswork.
- **Time Efficiency:** Streamlined navigation and simplified reporting reduce manual processes, saving time for IT and administrative teams.
- **Enhanced Visibility:** Enjoy full transparency into your SaaS resource allocation and usage.
