

Agile to Oracle Cloud PLM Conversion Program

Modernize Product Lifecycle Management with a Structured Transition to Oracle Cloud

Many organizations still rely on legacy Agile Product Lifecycle Management (PLM) systems that are reaching end-of-life. Apps Associates delivers a proven, scalable approach to migrate your data, business processes, and users to Oracle Cloud PLM—reducing risk while enabling modern product innovation.

Key Features & Benefits

1. Structured Migration Plan

Accelerate your move from Agile with a defined conversion framework.

- Review current Agile use cases and map to Oracle Cloud PLM
- Redesign objects such as Items, BOMs, Changes, and Documents
- Configure Oracle Cloud PLM to support re-engineered processes
- Validate both the data conversion and the new process design

2. Intelligent Data Conversion at Scale

Migrate structured and unstructured data with speed and accuracy.

- Conversion support for up to 6TB+ of Agile data
- Scripts for extracting Agile Vault content and uploading to Oracle Cloud
- Support for blended Agile + ERP product master data

3. Implementation Tools & IP Accelerators

Streamline and automate critical steps in your migration.

- Automation tools for PX extensions and workflow conversion
- Redesign of Agile workflows to align with Oracle PLM capabilities
- Data quality validation to ensure clean and compliant results.

4. Change Management & Hypercare

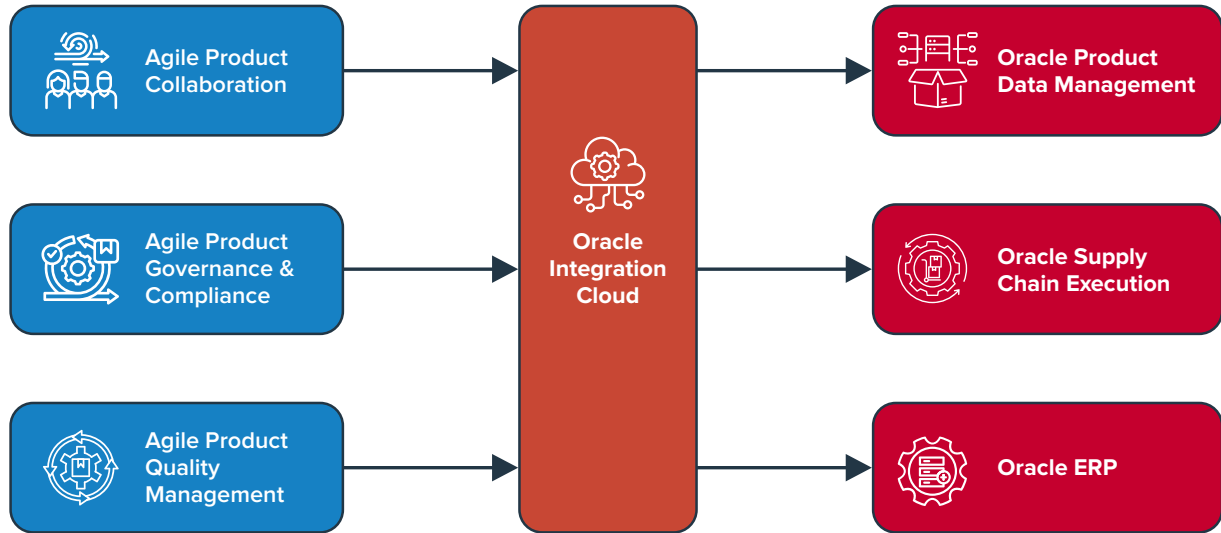

Drive adoption and readiness with targeted training and post-go-live support.

- Knowledge transfer and documentation aligned to user roles
- Support for change control and validation processes
- 4-week hypercare period to ensure a smooth transition

Why Move to Oracle Cloud PLM?

- ✓ Move from an unsupported or end-of-life product (Agile) to a fully supported Oracle Cloud PLM platform with quarterly enhancements
- ✓ Faster adoption of new functionality through Oracle's quarterly release cadence
- ✓ Deliver a unified user experience across product, quality, and supply chain teams
- ✓ Transition to a more secure environment leveraging Oracle's latest security tools
- ✓ Eliminate complex integrations between Agile and ERP systems
- ✓ Extend the digital thread through a unified, cloud-based product data model
- ✓ Reduce or eliminate third-party support fees associated with Agile.
