AppsAccelerate

# AppsAccelerate for Med Device: Agile to Oracle Cloud PLM Conversion

Accelerate Compliance and Product Innovation by Moving PLM to the Cloud

apps associates®

Medical device manufacturers face steep hurdles when moving off Agile PLM—complex compliance requirements, rigorous traceability needs, and massive volumes of structured and unstructured data. **AppsAccelerate for Med Device** delivers a purpose-built solution to modernize PLM while supporting regulatory and product development goals.

Why Move to Oracle Cloud PLM?

✓ Move from an unsupported or end-of-life product (Agile) to a fully supported Oracle Cloud PLM platform with quarterly enhancements

✓ Easier adoption of new functionality through Oracle's quarterly release cadence

✓ Deliver a unified user experience across product, quality, and supply chain teams

✓ Transition to a more secure environment leveraging Oracle's latest security tools

✓ Eliminate complex integrations between Agile and ERP systems

✓ Extend the digital thread through a unified, cloud-based product data model

✓ Reduce or eliminate third-party support fees associated with Agile.

Key Features & Benefits

1. Med Device-Specific Conversion Framework

Tailored to support GxP requirements and product lifecycle compliance.

• Map Agile use cases (Items, Changes, Docs, Quality Plans) to Oracle Cloud

• Redesign objects and workflows for DHF, DMR, and DHR alignment

• Validate both data and new processes per life sciences standards

• Product registration guidance for regulatory bodies (FDA, EUDAMED, and more)

• Manage compliance with ISO 13485, CFR 820, and CFR Part 11

• Support for 510(k), UDI, and other product registration types

• Integrated Quality Management System for CAPAs, NCMRs, audits, and more

2. High-Volume Data Conversion and Optimization

Confidently migrate large Agile datasets with purpose-built tools.

• Structured and unstructured Agile content conversion (6TB+ examples)

• PX extension conversion and workflow redesign

• Blended data extraction across Agile and ERP to create a unified product record

3. PLM Tools & Compliance-Oriented IP

Accelerate implementation with proprietary Apps-developed accelerators.

• Automation scripts for extraction and loading

• Validation planning and documentation aligned with client SOPs

• Prebuilt integrations for regulatory reporting

4. Change Management for Regulated Teams

Drive adoption with structured support and training.

• Training and enablement for regulated users

• Change control alignment and GDP-compliant documentation

• 4-week hypercare post go-live

Solution Snapshot: PLM Data Flow in Action

Why Apps Associates?

Apps Associates brings a rare combination of Oracle Cloud PLM and medical device expertise. We've supported some of the industry's most complex migrations and maintain active collaboration with Oracle Product Development to ensure alignment with roadmap and regulatory priorities.

About Apps Associates

Apps Associates is a premier enterprise applications and technology advisor, counseling and executing across every stage of the enterprise transformation journey—not just the destination. For more than two decades, Apps Associates has closely collaborated with decision makers across nearly every industry, offering end-to-end integration, modernization, and cloud migration services. By helping to break down the silos within today's most complex business challenges, Apps Associates is unlocking solutions and efficiencies that scale into future opportunities.

To learn more about how Apps Associates can help you align your business with the right technology, visit: www.appsassociates.com, or follow Apps Associates on social media on Youtube and LinkedIn.
