

## AppsAnswers

# AI Companion for Apps Associates' Oracle Analytics Accelerators

## We make it easy to begin a conversation with your data

Are you an Oracle ERP financials user looking for easier access to your existing financial data? Retrieve data from your financial systems without having to create reports. Leverage our easy-to-use chatbot interface and Generative AI to ask questions of your financial data in natural language.

## Make Oracle Data Accessible to Everyone

Designed for Oracle-heavy enterprises with large volumes of financial data, this tool:

- Integrates with APEX for a responsive, browser-based chat UI
- Connects directly to Oracle Autonomous Data Warehouse (ADW)
- Uses trained GenAI models to interpret natural language queries

Now, Finance and Operations can extract insights directly from GL, AP, AR just by asking questions - no technical gatekeepers.

## From Data Silos to Self-Service

Break down barriers between departments with a secure, scalable solution:

- AppsAnswers is a fully integrated extension to our very successful Oracle Analytics Accelerators (15+ implementations across various industries)
- Supports Fusion Cloud ERP, EBS, PeopleSoft, JD Edwards
- Leverage the large language model (LLM) of your choice (e.g., OpenAI, Meta Llama, Cohere, etc)
- Can be enhanced and fine-tuned over time to accommodate unique client requirements

Is integrated with Oracle Analytics security to control access to financial data

Is deployed with our Oracle Analytics Accelerators in a matter of weeks with no license cost - except for the underlying Oracle Cloud services

What's our AP aging for Acme Corp?

How much are we spending across all departments?
