

AI Workshop : Transforming Enterprise Operations with Oracle-Integrated AI

This exclusive workshop is designed for Business Leaders to explore the practical application and strategic value of Artificial Intelligence integrated directly within the organization's Oracle environment. Discover how to leverage pre-built and custom AI solutions to drive significant improvements in efficiency, accuracy, and decision-making across your Supply Chain Management (SCM), Enterprise Resource Planning (ERP), and Human Capital Management (HCM) systems. Guided by years of experience and a repeatable engagement framework, our approach demystifies AI, connects technology to strategy, and delivers measurable results.

What to Expect from the Workshop

Comprehensive Advisory Services:

Gain clarity on AI/ML's real-world potential through a structured set of services, including executive education, use case discovery, readiness assessment, and strategic road mapping. Our AI Workshop draws on extensive Oracle expertise and industry best practices to ensure every recommendation is relevant, secure, and actionable.

Get Insight Into How to Build and Integrate AI Into Your Organization's Culture.

How It Works: Each area can be delivered stand-alone (a la carte) or combined into a comprehensive Oracle AI Enablement Program. The timeline is typically eight weeks (standard) and can extend 10-12 weeks for a full enablement program. The Client Team provides access to data, systems, stakeholders and SMEs. The Apps Associates Team leads the workshop(s), assessments and roadmap delivery. We utilize our Advisory Framework which includes:

Business-First Orientation

Every session delivers targeted insights tied directly to organizational objectives, not just technical novelty

Proven Methodology

Built on a modular framework that has guided organizations through all phases of Oracle AI enablement, from initial education to enterprise-scale deployment.

Practical Deliverables

Materials include education decks, use case catalogs, gap analyses, operationalization blueprints, and comprehensive adoption roadmaps—equipping your team to lead AI initiatives with confidence.

“Your tailored approach gave our IT team a clear roadmap, transforming AI from a concept into a credible, board-level initiative.”

Key Workshop Outcomes:

- ✓ **AI/ML Education & Strategic Alignment:**
Receive plain-language, executive-level briefings on AI/ML capabilities, limitations, and the latest Oracle-native features. Collaboratively align AI priorities with business strategy and corporate goals to ensure every initiative delivers value.
- ✓ **Use Case Discovery & Feasibility:**
Participate in cross-functional sessions to identify high-impact, value-aligned use cases tailored to your organization. Evaluate data requirements, source readiness, and technical feasibility for rapid and realistic implementation.
- ✓ **Technology & Skills Assessment:**
Review your current technology stack and internal capabilities against what's needed for successful AI adoption. Receive pragmatic recommendations for addressing gaps, whether in platforms, talent, or data governance.

- ✓ **Operationalization & Security:**
Understand the steps required to move from pilot to production in a secure and compliant manner. Benefit from guidance on lifecycle management, regulatory impacts, and sustainable controls.
- ✓ **Roadmap Development:**
Leave with a high-level, prioritized AI adoption roadmap, complete with resource considerations, sequencing, and impact analysis- enabling confident, stepwise investment in AI.

Technical Integration and Support

We provide end-to-end support—from initial assessment to integration with Oracle Fusion Cloud or E-Business Suite environments. Our advisory services ensure a secure, compliant, and optimized path to AI adoption, with ongoing guidance available for post-workshop advancement.

Take the Next Step Toward AI-Enabled Transformation

Reserve your seat at the AI Workshop for Business Leaders.

Connect technical and business priorities, unlock practical value, and lead your organization through a trusted, outcome-focused AI journey.
